LabPortal Add-On Modules

Extend Your LabLynx LabPortal with Tailored Plug-Ins

LabPortal is designed as a flexible platform that grows with your lab. Beyond its core sample submission, reporting, and client communication features, additional modules can be added as *plug-ins*. These are configured and delivered through LabLynx Professional Services and quoted based on your lab's unique needs.

Available Add-Ons

E-Commerce Integration

- Enable secure online payment options for clients.
- Automate invoicing and transaction tracking.
- Integrate seamlessly with your existing accounting or ERP systems.

Analytics Integration

- Connect to business intelligence tools (e.g., LabVista BI, third-party dashboards).
- Generate custom charts, KPIs, and trends directly from portal data.
- Support data-driven decision-making and client-facing analytics.

Additional Information Pages

- Create custom landing pages for FAQs, policies, or lab service details.
- Enhance your client portal with lab-specific resources.
- Update and expand content as your services evolve.

Implementation & Services

All add-on modules are:

- **Delivered via Professional Services** – built and configured by LabLynx experts.
- **Quoted Per Project** – ensuring costs align with your exact scope.
- **Scalable & Future-Ready** – new modules can be added as your needs grow.

Value Highlights

- **Flexibility:** Only pay for what you need, when you need it.
- **Customization:** Aligns the portal experience with your lab's workflows and branding.
- **Efficiency:** Centralize client services and data for improved engagement and ROI.
